

NATIONAL ELECTRICITY CONSUMERS ADVOCACY PANEL

Summary of funding decisions made by the Panel during August 2007

1. Application 268: Energy Action Group – standing offer/price caps
Resolved that the application be rejected on the grounds that the intended submission is unsolicited and is unlikely to have an impact and therefore will not result in change.
2. Application 272: Major Energy Users Inc – Reliability Panel's 2nd interim report
Resolved that the application be approved for funding of \$23,900 excl.
3. Application 278: Energy Users Association of Australia - Implications for end-users of the increasing concentration and vertical integration of the NEM
Resolved that the application be deferred until the September 2007 meeting pending the applicant's response to a request for comments as to whether the proposed report will provide any further information on the concentration issue to that reported in application 94.
